CSCE 155 - Lab 7.0 - Arrays & Dynamic Memory - Worksheet

Names: _____

1. Answer the following questions about the memory leak:

   (a) How much memory did `memLeak` consume by the end of its execution?

   (b) How much memory was "lost" according to Valgrind?

   (c) How does that correlate to the parameters you ran (10 arrays of 1 million integers each)?

2. Demonstrate your working program(s) to a lab instructor.
